In this event, then Client and Adviser shall execute the LOE and Client agrees that the LOE together with these Standard Terms & Conditions of Business comprise the Service Agreement (the 'Agreement'). The Term of the Service Agreement shall commence on the date of execution of the LOE and shall continue in accordance with the provisions of the LOE, or until the completion of the provision of Services by the Adviser, or as terminated hereunder, whichever the earlier.

3. Adviser shall discuss and agree with Client any significant changes in the objectives, scope, approach, anticipated benefits or other aspects of the assignment which may arise during the term.
4. Adviser shall avoid any action or situation inconsistent with its professional obligations or which in any way might be seen to impair its professional integrity. For this purpose, Adviser shall maintain a fully independent position with Client at all times, ensuring that advice and recommendations are based on thorough and impartial consideration of all pertinent facts and circumstances and on opinion developed from reliable and relevant experience.
5. Client shall provide Adviser with all information which is necessary to Adviser in order to perform the required Scope of Services.
6. Adviser retains the right to make any changes to the Services or Scope thereof as necessary to comply with any applicable law or safety requirement, or where such changes do not materially affect the nature or quality of the Services.
7. Client shall not engage any other adviser to provide or supply the whole or part of the instructions given by Client to Adviser without prior consultation with and agreement of Adviser.
8. Client shall give Adviser timely advice of any change in circumstances which could affect the completion or validity of Adviser's discharge of Client's instructions. Adviser shall ensure an adequate level of staffing to provide the Services.
9. Adviser's representatives shall make themselves available to the Client as reasonably required from time to time at mutually acceptable times and locations to keep the Client fully informed of the progress of the Services being provided. Adviser shall promptly report in writing and/or by electronic mail the progress to the Client at any time upon request.
10. Adviser's reports are prepared in good faith and the same represent the considered opinion of the Adviser on the subject matter concerned as at the date of the report. The Adviser makes no representations, warranties or undertakings (express or implied) as to, nor accepts any responsibility for, and hereby disclaims any liability for the completeness or accuracy of any of the information, representations, express or implied, or omissions contained in its reports and nothing therein contained should be relied upon as a promise or representation as to future results or events. All estimates, forecasts and expressions of opinion by the Adviser contained therein are made in good faith, with due care and on assumptions considered reasonable. 13. Where the Adviser provides an opinion as to the current technical status or value of an aircraft, it is the result of an independent review and analysis of various identified documents provided to the Adviser together with data collated by the Adviser from industry sources. It is not an in-depth examination of an aircraft's current technical status and condition requiring extensive physical inspection of the aircraft in a controlled engineering environment with extensive manpower requirements and complete component and other maintenance records back to birth, and, therefore, statements and opinions contained in any such technical status or valuation report cannot be construed as being a definitive statement, only as a guide. The Adviser's observations as to an aircraft status and/or valuation shall be considered appropriate only as at the date of issue of such report. Subsequent to that date, there may be changes in the global aviation marketplace generally or specific to the aircraft type and/or model, in the applicable regulatory environment, or in the status and physical condition of an aircraft, its engines, accessories and equipment in particular, or other general global economic factors, that may affect the Adviser's opinion as to valuation.
